

These mapping documents are currently being updated to reflect the new 2025 RSHE guidance for England, which becomes statutory in September 2026. The RSHE statements below are taken from the 2019 Guidance, which schools can continue to follow until the necessary consultation and preparation has taken place through the 2025/2026 academic year.

Given the comprehensive nature of our review process, we'd recommend waiting until our updated materials are available (expected by end of December 2025) before undertaking any major policy reviews or curriculum mapping exercises.

Jigsaw, the mindful approach to PSHE, is a progressive and spiral scheme of learning. In planning the lessons, Jigsaw PSHE ensures that learning from previous years is revisited and extended, adding new concepts, knowledge and skills, year on year as appropriate. The table below draws out the **spiral** knowledge and skills progression within all six Puzzles (units of work) including the key vocabulary used in each year group; explicit links to the DfE statutory Relationships and Health Education outcomes have been made in each Puzzle.

INTENT: Jigsaw holds children at its heart, and its cohesive vision helps children understand and value how they fit into and contribute to the world. With strong emphasis on emotional literacy, building resilience and nurturing mental and physical health, Jigsaw 3-11 properly equips schools to deliver engaging and relevant PSHE within a whole-school approach. Jigsaw lessons also include mindfulness allowing children to advance their emotional awareness, concentration, focus and self-regulation.

IMPLEMENTATION: Jigsaw 3-11 offers a comprehensive programme for Primary PSHE, including statutory Relationships and Health Education, in a spiral, progressive and fully planned scheme of work, giving children relevant learning experiences to help them navigate their world and to develop positive relationships with themselves and others.

IMPACT: This can be established through assessment identified in the key learning.

			Being Me in M	y World Puzzle – A	utumn 1					
	EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6			
DfE Statutory Relationships & Health Education outcomes	PSED – ELG: SELF-REGULATION Show an understanding of their own feelings and those of others, and begin to regulate their behaviour accordingly.  Give focused attention to what the teacher says, responding appropriately even when engaged in activity, and show an ability to follow instructions involving several ideas or actions.  ELG: MANAGING SELF Explain the reasons for rules, know right from wrong and try to behave accordingly.  PSED – ELG: BUILDING RELATIONSHIPS Work and play cooperatively and take turns with others.  Show sensitivity to their own and to others' needs.	Caring friendships (R7) how important friendship (R8) the characteristics of friendifficulties (R9) that healthy friendships at (R11) how to recognise who to how to seek help or advice from the importance of respective interest of the importance of respective interest of the importance of respective interest of the importance of self-respective interest of the importance of permits of the importance of permits interest of the importance of permits into the importance of self-respective interest of the importance of permits into the importance of permits into the importance of self-respective interest of the importance of permits into the importance of permits	(R7) how important friendships are in making us feel happy and secure, and how people choose and make friends (R8) the characteristics of friendships, including mutual respect, truthfulness, trustworthiness, loyalty, kindness, generosity, trust, sharing interests and experiences and support with problems and difficulties (R9) that healthy friendships are positive and welcoming towards others, and do not make others feel lonely or excluded (R11) how to recognise who to trust and who not to trust, how to judge when a friendship is making them feel unhappy or uncomfortable, managing conflict, how to manage these situations and how to seek help or advice from others, if needed.  **Respectful relationships** (R12) the importance of respecting others, even when they are very different from them (for example, physically, in character, personality or backgrounds), or make different choices or have different preferences or beliefs (R13) practical steps they can take in a range of different contexts to improve or support respectful relationships (R14) the conventions of courtesy and manners (R15) the importance of self-respect and how this links to their own happiness (R16) that in school and in wider society they can expect to be treated with respect by others, and that in turn they should show due respect to others, including those in positions of authority (R19) the importance of permission seeking and giving in relationships with friends, peers and adults.  **Online relationships** (R21) that the same principles apply to online relationships as to face-to-face relationships, including the importance of respect for others online, including when we are anonymous Being safe (R25) what sorts of boundaries are appropriate in friendships with peers and others (including in a digital context) (R32) where to get advice e.g. family, school and/or other sources.  **Physical Health and Well-Being — By end of primary, pupils should know:**  **Mental well-Being** (H2) that there is a normal range of emotions (e.g. happiness, sadn

Seeing safe R30) how to ask for advice or help for themselves or others, and to keep trying until they are heard.							
Puzzle	EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6			
overview Celebrating Difference	In this Puzzle, the children consider challenges and facing up to them. They discuss not giving up and trying until they have achieved their goal. The children are encouraged to think about jobs that they might like to have when they are older and are taught to associate what they learn now with being able to have the job they want. They also talk about achieving goals and the feelings linked to this.	to achieve them as well as overcoming difficulties when they try. The children learn to recognise the feelings associated with facing obstacles to achieving their goals as well as when they achieve them.	In this Puzzle, the children explore setting realistic goals and how they can achieve them. They discuss perseverance when they find things difficult as well as recognising their strengths as a learner. The children consider group work and reflect on with whom they work well and with whom they don't. They also reflect on sharing success with other people.	In this Puzzle, the children look at examples of people who have overcome challenges to achieve success and discuss what they can learn from these stories. The children identify their own dreams and ambitions and discuss how it will feel when they achieve them. They discuss facing learning challenges and identify their own strategies for overcoming these. The children consider obstacles that might stop them from achieving their goals and how to overcome these. They reflect on their progress and successes and identify what they could do better next time.	In this Puzzle, the children consider their hopes and dreams. They discuss how it feels when dreams don't come true and how to cope with/overcome feelings of disappointment. The children discuss making new plans and setting new goals even if they have been disappointed. The class explore group work and overcoming challenges together. They reflect on their successes and the feelings associated with overcoming a challenge.	In this Puzzle, the children share their dreams and goals and how they might need money to help them achieve them. They consider jobs that people they know do, they look at the fact that some jobs pay more money than others and reflect on what types of jobs they might like to do when they are older. The children look as the similarities and differences between themselves (and their dreams and goals) and someone from a different culture.	In this Puzzle, the children share their own strengths and further stretching themselves by setting challenging and realistic goals. They discuss the learning steps they will need to take as well as talking about how to stay motivated. The children reflect on various global issues and explore places where people may be suffering or living in difficult situations; whilst doing this, they reflect on their own emotions linked to this learning. The children also discover what they think their classmates like and admire about them, as well as working on giving others praise and compliments.

(H17) where and how to report concerns and get support with issues online.

#### Physical health and fitness

- (H18) the characteristics and mental and physical benefits of an active lifestyle
- (H19) the importance of building regular exercise into daily and weekly routines and how to achieve this; for example, walking or cycling to school, a daily active mile or other forms of regular, vigorous exercise
- (H20) the risks associated with an inactive lifestyle (including obesity)
- (H21) how and when to seek support including which adults to speak to in school if they are worried about their health.

#### **Healthy eating**

- (H22) what constitutes a healthy diet (including understanding calories and other nutritional content)
- (H23) the principles of planning and preparing a range of healthy meals
- (H24) the characteristics of a poor diet and risks associated with unhealthy eating (including, for example, obesity and tooth decay) and other behaviours (e.g. the impact of alcohol on diet or health).

### Drugs, alcohol

(H25) the facts about legal and illegal harmful substances and associated risks, including smoking, alcohol use and drug-taking.

#### **Health and prevention**

- (H26) how to recognise early signs of physical illness, such as weight loss, or unexplained changes to the body
- (H28) the importance of sufficient good quality sleep for good health and that a lack of sleep can affect weight, mood and ability to learn
- (H30) about personal hygiene and germs including bacteria, viruses, how they are spread and treated, and the importance of handwashing
- (H31) the facts and science relating to allergies, immunisation and vaccination.

#### Basic first aid

- (H32) how to make a clear and efficient call to emergency services if necessary
- (H33) concepts of basic first-aid, for example dealing with common injuries, including head injuries.

EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
In this Puzzle, children learn about their bodies: the names of some key parts as well as how to stay healthy. They talk about food and that some foods are healthier than others. They discuss the importance of sleep and what they can do to help themselves get to sleep. They talk about hand washing and why it is important. The class also discuss 'stranger danger' and what they should do if approached by someone they don't know.	In this Puzzle, the children learn about healthy and less healthy choices and how these choices make them feel. They explore about hygiene, keeping themselves clean and that germs can make you unwell. The children learn about road safety, and about people who can help them to stay safe.	In this Puzzle, the children learn about healthy food; they talk about having a healthy relationship with food and making healthy choices. The children consider what makes them feel relaxed and stressed. They learn about medicines, how they work and how to use them safely. The children make healthy snacks and discuss why they are good for their bodies.	In this Puzzle, the children learn about the importance of exercise and how it helps your body to stay healthy. They also learn about their heart and lungs, what they do and how they are very important. The children discover facts about calories, fat and sugar; they discuss what each of these are and how the amount they consume can affect their health. The children learn about different types of drugs, the ones you take to make you better, as well as other drugs. The children consider things, places and people that are dangerous and link this to strategies for keeping themselves safe.	In this Puzzle, the children look at the friendship groups that they are part of, how they are formed, how they have leaders and followers and what role they play. The children reflect on their friendships, how different people make them feel and which friends they value the most. The children also learn about smoking and its effects on health; they do the same with alcohol and then look at the reasons why people might drink or smoke. Finally, they learn about peer pressure and how to deal with it successfully.	In this Puzzle, the children investigate the risks associated with smoking and how it affects the lungs, liver and heart. Likewise, they learn about the risks associated with alcohol misuse. They are taught a range of basic first aid and emergency procedures (including the recovery position) and learn how to contact the emergency services when needed. The children investigate how body types are portrayed in the media, social media and celebrity culture. They also learn about eating disorders and people's relationships with food and how this can be linked to negative body image pressures.	In this Puzzle, the children discuss taking responsibility for their own physical and emotional health and the choices linked to this. They learn about different types of drugs and the effects these can have on people's bodies. The children learn about exploitation as well as gang culture and the associated risks therin. They also learn about mental health/illness and that people have different attitudes towards this. They learn to recognise the triggers for and feelings of being stressed and that there are strategies they can use when they are feeling stressed.
	In this Puzzle, children learn about their bodies: the names of some key parts as well as how to stay healthy. They talk about food and that some foods are healthier than others. ## Physical Health and Well-Being – By end of primary, pupils should know:

#### Mental well-being

- (H1) that mental well-being is a normal part of daily life, in the same way as physical health
- (H2) that there is a normal range of emotions (e.g. happiness, sadness, anger, fear, surprise, nervousness) and scale of emotions that all humans experience in relation to different experiences and situations
- (H3) how to recognise and talk about their emotions, including having a varied vocabulary of words to use when talking about their own and others' feelings
- (H4) how to judge whether what they are feeling and how they are behaving is appropriate and proportionate
- (H5) the benefits of physical exercise, time outdoors, community participation, voluntary and service-based activity on mental well-being and happiness
- (H6) simple self-care techniques, including the importance of rest, time spent with friends and family and the benefits of hobbies and interests
- (H7) isolation and loneliness can affect children and that it is very important for children to discuss their feelings with an adult and seek support
- (H8) that bullying (including cyberbullying) has a negative and often lasting impact on mental well-being
- (H9) where and how to seek support (including recognising the triggers for seeking support), including whom in school they should speak to if they are worried about their own or someone else's mental well-being or ability to control their emotions (including issues arising online)
- (H10) it is common for people to experience mental ill health. For many people who do, the problems can be resolved if the right support is made available, especially if accessed early enough.

# Internet safety and harms

- (H11) that for most people the internet is an integral part of life and has many benefits
- (H12) about the benefits of rationing time spent online, the risks of excessive time spent on electronic devices and the impact of positive and negative content online on their own and others' mental and physical well-being
- (H13) how to consider the effect of their online actions on others and know how to recognise and display respectful behaviour online and the importance of keeping personal information private
- (H14) why social media, some computer games and online gaming, for example, are age restricted
- (H15) that the internet can also be a negative place where online abuse, trolling, bullying and harassment can take place, which can have a negative impact on mental health
- (H16) how to be a discerning consumer of information online including understanding that information, including that from search engines, is ranked, selected and targeted

Year 3

(H17) where and how to report concerns and get support with issues online.

# Physical health and fitness

Year 1

- (H18) the characteristics and mental and physical benefits of an active lifestyle
- (H21) how and when to seek support including which adults to speak to in school if they are worried about their health.

Puzzie
Overview
Relationships

**n** 1.

# Children are introduced to the key relationships in their lives. They learn about families and the different roles people can have in a family. They explore the friendships they have and what makes a good friend. They are introduced to simple strategies they can use to mend friendships. The children also practise Jigsaw's Calm Me and how they can use this when feeling upset or angry.

**EYFS** 

Children's breadth of relationships is widened to include people they may find in their school community. They consider their own significant relationships (family, friends and school community) and why these are special and important. As part of the lessons on healthy and safe relationships, children learn that touch can be used in kind and unkind ways. This supports later work on safeguarding. Pupils also consider their own personal attributes as a friend, family member and as part of a community, and are encouraged to celebrate these.

Learning about family relationships widens to include roles and responsibilities in a family and the importance of cooperation, appreciation and trust. Friendships are also revisited with a focus on falling out and mending friendships. This becomes more formalised and the children learn and practise two different strategies for conflict resolution (Solve it together and Mending Friendships). Children consider the importance of trust in relationships and what this feels like. They also learn about two types of secret, and why 'worry secrets' should always be shared with a trusted adult. Children reflect upon different types of physical contact in relationships, which are acceptable and which ones are not. They practise strategies for being assertive when someone is hurting them or

being unkind. The children also

Year 2

In this Puzzle, children revisit family relationships and identify the different expectations and roles that exist within the family home. They identify why stereotypes can be unfair and may not be accurate, e.g. Mum is the carer, Dad goes to work. They also look at careers and why stereotypes can be unfair in this context. They learn that families should be founded on love, respect, appreciation, trust and co-operation. Children are reminded about the Solve it together technique for negotiating conflict situations and the concept of a win-win outcome is introduced.

Online relationships through gaming and apps are explored and children are introduced to some rules for staying safe online. Children also learn that they are part of a global community and they are

Learning in this year group starts focussing on the emotional aspects of relationships and friendships. With this in mind, children explore jealousy and loss/ bereavement. They identify the emotions associated with these relationship changes, the possible reasons for the change and strategies for coping with the change. The children learn that change is a natural in relationships and they will experience (or may have already experienced) some of these changes. Children revisit skills of negotiation particularly to help manage a change in a relationship. They also learn that sometimes it is better if relationships end, especially if they are causing negative feelings or they are unsafe. Children are taught that

Year 4

Children learn about the importance of self-esteem and ways this can be boosted. This is important in an online context as well as offline, as mental health can be damaged by excessive comparison with others. This leads onto a series of lessons that allow the children to investigate and reflect upon a variety of positive and negative online/social media contexts including gaming and social networking. They learn about agelimits and also age-appropriateness. Within these lessons, children are taught the SMARRT internet safety rules and they apply these in different situations. Risk, pressure and influences are revisited with a focus on the physical and emotional aspects of identifying when something online or in social media feels uncomfortable or unsafe. Children are taught about grooming and how people online can pretend to be whoever they want. Rights, responsibilities and respect are revisited with an angle on technology

Year 5

In this Puzzle, the children learn more about mental health and how to take care of their own mental well-being. They explore the grief cycle and its various stages, and discuss the different causes of grief and loss. The children learn about people who can try to control them or have power over them. They investigate online safety, learning how to judge if something is safe and helpful, as well as talking about communicating with friends and family in a positive and safe way.

Year 6

		learn about people who can help them if they are worried or scared.	connected to others they don't know in many ways, e.g. through global trade. They investigate the wants and needs of other children who are less fortunate and compare these with their own. Children's universal rights are also revisited.	relationship endings can be amicable.	use. Screen time is also discussed and children find ways to reduce their own screen time. This Puzzle aims to help children to be more discerning when viewing anything online or on social media.	
Taught knowledge  (Key objectives are in bold)	<ul> <li>Know what a family is</li> <li>Know that different people in a family have different responsibilities (jobs)</li> <li>Know some of the characteristics of healthy and safe friendships</li> <li>Know that friends sometimes fall out</li> <li>Know some ways to mend a friendship</li> <li>Know that unkind words can never be taken back and they can hurt</li> <li>Know how to use Jigsaw's Calm Me to help when feeling angry</li> <li>Know some reasons why others get angry</li> <li>Know that different</li> <li>Know that families are founded on belonging love and care</li> <li>Know that physical contact can be used as a greeting</li> <li>Know how to make a friend</li> <li>Know who to ask for help in the school community</li> <li>Know that there are lots of different types of families</li> <li>Know the characteristics of healthy and safe friends</li> <li>Know about the different people in the school community and how they help</li> </ul>	<ul> <li>Know how to stay stop if someone is hurting them</li> <li>Know there are good secrets and worry secrets and why it is important to share worry secrets</li> <li>Know what trust is</li> <li>Know that everyone's family is different</li> <li>Know that families function well when there is trust, respect, care, love and co-operation</li> <li>Know some reasons why friends have conflicts</li> <li>Know that friendships have ups and downs and sometimes change with time</li> </ul>	<ul> <li>Know that different family members carry out different roles or have different responsibilities within the family</li> <li>Know some of the skills of friendship, e.g. taking turns, being a good listener</li> <li>Know some strategies for keeping themselves safe online</li> <li>Know that they and all children have rights (UNCRC)</li> <li>Know that gender stereotypes can be unfair, e.g. Mum is always the carer, Dad always goes to work etc</li> <li>Know how some of the actions and work of people around the world help and influence my life</li> <li>Know the lives of children around the world can be different from their own</li> </ul>	<ul> <li>Know some reasons why people feel jealousy</li> <li>Know that loss is a normal part of relationships</li> <li>Know that negative feelings are a normal part of loss</li> <li>Know that sometimes it is better for a friendship/relationship to end if it is causing negative feelings or is unsafe</li> <li>Know that jealousy can be damaging to relationships</li> <li>Know that memories can support us when we lose a special person or animal</li> </ul>	<ul> <li>Know that there are rights and responsibilities in an online community or social network</li> <li>Know that there are rights and responsibilities when playing a game online</li> <li>Know that too much screen time isn't healthy</li> <li>Know how to stay safe when using technology to communicate with friends</li> <li>Know that a personality is made up of many different characteristics, qualities and attributes</li> <li>Know that belonging to an online community can have positive and negative consequences</li> </ul>	<ul> <li>Know that it is important to take care of their own mental health</li> <li>Know ways that they can take care of their own mental health</li> <li>Know the stages of grief and that there are different types of loss that cause people to grieve</li> <li>Know that sometimes people can try to gain power or control them</li> <li>Know some of the dangers of being 'online'</li> <li>Know how to use technology safely and positively to communicate with their friends and family</li> </ul>

elationships & Health Education outcomes	PSED – ELG: SELF-REGULATION Give focused attention to what the teacher says, responding appropriately even when engaged in activity, and show an ability to follow instructions involving several ideas or actions.  PSED – ELG: BUILDING RELATIONSHIPS Show sensitivity to their own and to others' needs.	(R1) that families are important for children growing up because they can give love, security and stability (R2) the characteristics of healthy family life, commitment to each other, including in times of difficulty, protection and care for children and other family members, the importance of spending time together and sharing each other's lives (R3) that others' families, either in school or in the wider world, sometimes look different from their family, but that they should respect those differences and know that other children's families are also characterised by love and care (R4) that stable, caring relationships, which may be of different types, are at the heart of happy families, and are important for children's security as they grow up (R6) how to recognise if family relationships are making them feel unhappy or unsafe, and how to seek help or advice from others if needed.  Caring friendships								
DfE Statutory Re		Physical Health and Well-Being – By end of primary, pupils should know:  Mental well-being  (H1) that mental well-being is a normal part of daily life, in the same way as physical health  (H2) that there is a normal range of emotions (e.g. happiness, sadness, anger, fear, surprise, nervousness) and scale of emotions that all humans experience in relation to different experiences and situations  (H3) how to recognise and talk about their emotions, including having a varied vocabulary of words to use when talking about their own and others' feelings  (H4) how to judge whether what they are feeling and how they are behaving is appropriate and proportionate  (H5) the benefits of physical exercise, time outdoors, community participation, voluntary and service-based activity on mental well-being and happiness  (H6) simple self-care techniques, including the importance of rest, time spent with friends and family and the benefits of hobbies and interests  (H7) isolation and loneliness can affect children and that it is very important for children to discuss their feelings with an adult and seek support  (H8) that bullying (including cyberbullying) has a negative and often lasting impact on mental well-being  (H9) where and how to seek support (including recognising the triggers for seeking support), including whom in school they should speak to if they are worried about their own or someone else's mental well-ability to control their emotions (including issues arising online)  (H10) it is common for people to experience mental ill health. For many people who do, the problems can be resolved if the right support is made available, especially if accessed early enough.  Changing adolescent body  (H34) key facts about puberty and the changing adolescent body, particularly from age 9 through to age 11, including physical and emotional changes  (H35) about menstrual well-being including the key facts about the menstrual cycle.								
Puzzle	EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6			

# Overview Changing Me

Children are encouraged to think about how they have changed from being a baby and what may change for them in the future. They consolidate the names and functions of some of the main parts of the body and discuss how these have changed. They learn that our bodies change in lots of different ways as we get older. Children understand that change can bring about positive and negative feelings, and that sharing these can help. They also consider the role that memories can have in managing change.

Children are introduced to life cycles, e.g. that of a frog and identify the different stages. They compare this with a human life cycle and look at simple changes from baby to adult, e.g. getting taller, learning to walk, etc. They discuss how they have changed so far and that people grow up at different rates. As part of a school's safeguarding duty, pupils are taught the correct words for private parts of the body (those kept private by underwear: vagina, anus, penis, testicles, vulva). They are also taught that nobody has the right to hurt these parts of the body. Change is discussed as a natural and normal part of getting older which can bring about happy and sad feelings. Children practise a range of skills to help manage their feelings and learn how to access help if they are worried about change, or if someone is hurting them.

In this Puzzle, children compare different life cycles in nature, including that of humans. They reflect on the changes that occur (not including puberty) between baby, toddler, child, teenager, adult and old age. Within this, children also discuss how independence, freedoms and responsibility can increase with age. As part of a school's safeguarding duty, pupils are retaught the correct words for private parts of the body (those kept private by underwear: vagina, anus, penis, testicle, vulva). They are also reminded that nobody has the right to hurt these parts of the body, including a lesson on inappropriate touch and assertiveness. Children practise a range of strategies for managing feelings and emotions. They are also taught where they can get help if worried or frightened. Change is taught as a natural and normal part of growing up and the range of emotions that can occur with change are explored and discussed.

This Puzzle begins learning about babies and what they need to grow and develop including parenting. Children are taught that it is usually the female that carries the baby in nature. This leads onto lessons where puberty is introduced. Children first look at the outside body changes in males and females. They learn that puberty is a natural part of growing up and that it is a process for getting their bodies ready to make a baby when grown-up. Inside body changes are also taught. Children learn that females have eggs (ova) in their ovaries and these are released monthly. If unfertilised by a male's sperm, it passes out of the body as a period. Sexual intercourse and the birth of the baby are not taught in this year group. Children discuss how they feel about puberty and growing up and there are opportunities for them to seek reassurance if anything is worrying them.

In this Puzzle, bodily changes at puberty are revisited with some additional vocabulary, particularly around menstruation. Sanitary health is taught, including introducing pupils to different sanitary and personal hygiene products. Conception and sexual intercourse are introduced in simple terms so the children understand that a baby is formed by the joining of an ovum and sperm. They also learn that the ovum and sperm carry genetic information that carry personal characteristics. The Puzzle ends by looking at the feelings associated with change and how to manage these. Children are introduced to Jigsaw's Circle of change model as a strategy for managing future changes.

In this Puzzle, the children revisit self-esteem, self-image and body image. They learn that we all have perceptions about ourselves and others, and these may be right or wrong. They also reflect on how social media and the media can promote unhelpful comparison and how to manage this. Puberty is revisited in further detail, explaining bodily changes in males and females. Sexual intercourse is explained in slightly more detail than in the previous year. Children are encouraged to ask questions and seek clarification about anything they don't understand. Further details about pregnancy are introduced including some facts about the development of the foetus and some simple explanation about alternative ways of conception, e.g. IVF. Children learn that having a baby is a personal choice. Details of contraceptive options and methods are not taught as this is not ageappropriate. Reasons why people choose to be in a romantic relationship and choose to have a baby are also explored. Children look at what becoming a teenager means for them with an increase in freedom, rights and responsibilities. They also consider the perceptions that surround teenagers and reflect whether they are always accurate, e.g. teenagers are always moody; all teenagers have a boyfriend/girlfriend, etc.

In this Puzzle, the children learn about puberty in boys and girls and the changes that will happen; they reflect on how they feel about these changes. The children also learn about childbirth and the stages of development of a baby, starting at conception. They explore what it means to be being physically attracted to someone and the effect this can have upon the relationship. They learn about different relationships and the importance of mutual respect and not pressuring/being pressured into doing something that they don't want to. The children also learn about self-esteem, why it is important and ways to develop it. Finally, they look at the transition to secondary school (or next class) and what they are looking forward to/are worried about and how they can prepare themselves mentally.

Social and Emotional skills (Key objectives are in bold)	<ul> <li>Recognise that changing class can elicit happy and/or sad emotions</li> <li>Can say how they feel about changing class/growing up</li> <li>Can identify how they have changed from a baby</li> <li>Can say what might</li> </ul>	<ul> <li>Understand and accept that change is a natural part of getting older</li> <li>Can suggest ways to manage change, e.g. moving to a new class</li> <li>Can identify some things that have changed and some things that have stayed the same since being a baby (including the</li> </ul>	<ul> <li>Can say who they would go to for help if worried or scared</li> <li>Can say what types of touch they find comfortable/uncomfortable</li> <li>Be able to confidently ask someone to stop if they are being hurt or frightened</li> </ul>	<ul> <li>changes that happen between being a baby and a child</li> <li>Can express how they feel about puberty</li> <li>Can say who they can talk to about puberty if they have any worries</li> <li>Can suggest ways to help them manage feelings during changes they are more anxious about</li> </ul>	<ul> <li>Can appreciate their own uniqueness and that of others</li> <li>Can express any concerns they have about puberty</li> <li>Have strategies for managing the emotions relating to change</li> </ul>	<ul> <li>Can celebrate what they like about their own and others' self-image and body image</li> <li>Can suggest ways to boost self-esteem of self and others</li> <li>Recognise that puberty is a natural process that happens to everybody and that it will be OK for them</li> </ul>	<ul> <li>Recognise ways they can develop their own selfesteem</li> <li>Can express how they feel about the changes that will happen to them during puberty</li> <li>Understand that mutual respect is essential in a boyfriend/girlfriend relationship and that they shouldn't feel pressured</li> </ul>
Taught knowledge  (Key objectives are in bold)	<ul> <li>Know the names and functions of some parts of the body (see vocabulary list)</li> <li>Know that we grow from baby to adult</li> <li>Know who to talk to if they are feeling worried</li> <li>Know that sharing how they feel can help solve a worry</li> <li>Know that remembering happy times can help us move on</li> </ul>	<ul> <li>Know the names of male and female private body parts</li> <li>Know that there are correct names for private body parts and nicknames, and when to use them</li> <li>Know which parts of the body are private and that they belong to that person and that nobody has the right to hurt these</li> <li>Know who to ask for help if they are worried or frightened</li> <li>Know that animals including humans have a life cycle</li> <li>Know that changes happen when we grow up</li> <li>Know that people grow up at different rates and that is normal</li> <li>Know that learning brings about change</li> </ul>	<ul> <li>Know the physical differences between male and female bodies</li> <li>Know that private body parts are special and that no one has the right to hurt these</li> <li>Know who to ask for help if they are worried or frightened</li> <li>Know there are different types of touch and that some are acceptable and some are unacceptable</li> <li>Know the correct names for private body parts</li> <li>Know that life cycles exist in nature</li> <li>Know that aging is a natural process including old age</li> <li>Know that some changes are out of an individual's control</li> <li>Know how their bodies have changed from when they were a baby and that they will continue to change as</li> </ul>	<ul> <li>Know that the male and female body needs to change at puberty so their bodies can make babies when they are adults</li> <li>Know some of the outside body changes that happen during puberty</li> <li>Know some of the changes on the inside that happen during puberty</li> <li>Know that in animals and humans lots of changes happen between conception and growing up</li> <li>Know that in nature it is usually the female that carries the baby</li> <li>Know that in humans a mother carries the baby in her uterus (womb) and this is where it develops</li> <li>Know that babies need love and care from their parents/carers</li> <li>Know some of the</li> </ul>	<ul> <li>Know that personal characteristics are inherited from birth parents and this is brought about by an ovum joining with a sperm</li> <li>Know that babies are made by a sperm joining with an ovum</li> <li>Know the names of the different internal and external body parts that are needed to make a baby</li> <li>Know how the female and male body change at puberty</li> <li>Know that change can bring about a range of different emotions</li> <li>Know that personal hygiene is important during puberty and as an adult</li> <li>Know that change is a normal part of life and that some cannot be controlled and have to be accepted</li> </ul>	<ul> <li>Know how girls' and boys' bodies change during puberty and understand the importance of looking after themselves physically and emotionally</li> <li>Know that sexual intercourse can lead to conception</li> <li>Know that some people need help to conceive and might use IVF</li> <li>Know that becoming a teenager involves various changes and also brings growing responsibility</li> <li>Know what perception means and that perceptions can be right or wrong</li> </ul>	<ul> <li>Know how girls' and boys' bodies change during puberty and understand the importance of looking after themselves physically and emotionally</li> <li>Know how a baby develops from conception through the nine months of pregnancy and how it is born</li> <li>Know how being physically attracted to someone changes the nature of the relationship</li> <li>Know the importance of self-esteem and what they can do to develop it</li> <li>Know what they are looking forward to and what they are worried about when thinking about transition to secondary school/moving to their next class</li> </ul>

	e Can identify positive memories from the past year in school/home	Can express why they enjoy learning	<ul> <li>Can appreciate that changes will happen and that some can be controlled and others not</li> <li>Be able to express how they feel about changes</li> <li>Show appreciation for people who are older</li> <li>Can recognise the independence and responsibilities they have now compared to being a baby or toddler</li> <li>Can say what greater responsibilities and freedoms they may have in the future</li> <li>Can say what they are looking forward to in the next year</li> </ul>	<ul> <li>Can identify stereotypical family roles and challenge these ideas, e.g. it may not always be Mum who does the laundry</li> <li>Can express how they feel about babies</li> <li>Can describe the emotions that a new baby can bring to a family</li> <li>Can identify changes they are looking forward to in the next year</li> </ul>	<ul> <li>Can express how they feel about having children when they are grown up</li> <li>Can say who they can talk to about puberty if they are worried</li> <li>Can apply the circle of change model to themselves to have strategies for managing change</li> </ul>	<ul> <li>Can ask questions about puberty to seek clarification</li> <li>Can express how they feel about having a romantic relationship when they are an adult</li> <li>Can express how they feel about having children when they are an adult</li> <li>Can express how they feel about becoming a teenager</li> <li>Can say who they can talk to if concerned about puberty or becoming a teenager/adult</li> </ul>	<ul> <li>into doing something that they don't want to</li> <li>Recognise how they feel when they reflect on the development and birth of a baby</li> <li>Can celebrate what they like about their own and others' self-image and body image</li> <li>Use strategies to prepare themselves emotionally for the transition (changes) to secondary school</li> </ul>

**SMSC Links**: Every Jigsaw lesson from Early Years to upper primary offers opportunities for children's **spiritual, moral, social and cultural (SMSC) development**, and this is clearly mapped and balanced across each year group. Likewise, Jigsaw is designed to provide structured opportunities in every lesson to practise **and enhance the five skills associated with the emotional literacy (self-awareness, social skills, empathy, motivation and managing <b>feelings)**. At Jigsaw, we believe that these opportunities are vital for children's development, their understanding of themselves and others and in increasing their capacity to learn.

**British Values**: Jigsaw PSHE 3-11 supports the **British Values** of Democracy, Rule of Law, Individual Liberty, Mutual Respect and Tolerance of those of different faiths and beliefs. It has been mapped lesson by lesson against the British Values agenda.
